

Lesson Review

 coursera.org/learn/eportfolio-english/supplement/OPfIE/lesson-review

In this lesson, we looked at networking. We looked at networking by commenting on others' work and posts and specifically we looked at

- giving a compliment
- making a request and
- showing appreciation.

Part 1: Compliment another professional's work. You want to compliment other professionals' work and even professionals that you don't know. Complimenting others work is a way for you to get to know them and as we said, you want to make those comments general.

Here were some of the comments we looked at:

amazing, awesome, impressive, great or nice

Adjective + Noun like *amazing work, awesome result, impressive skills, great job or nice post*

Part 2: You also discovered that you can compliment by showing interest. You can do that by asking wh questions about their work. Here are some of the questions that you can ask:

How did you do that?

How long did it take?

What kind of _____ did you use? (ex: What kind of software did you use? What kind of spreadsheet did you use?)

Part 3: You also learned how to ask other professionals to comment on your work by writing a polite request like these:

Can you...? Could you...? or Would you...?

Could you look at _____? (ex: Could you look at my work and let me know what you think?)

End with a thank you: *I would greatly appreciate your help or I would greatly appreciate your feedback.*

For practice, please go to the discussion forum.
