

Practicing for the Weakness Question

For this assignment, you will prepare answers to three weaknesses questions, using the techniques discussed in this module. The questions are:

- a. What is your greatest weakness?
- b. Tell me about something you have found difficult at work.
- c. What skills do you most need to improve?

Keep these guidelines in mind:

- you demonstrate strength through an honest self-appraisal
- you demonstrate maturity by taking responsibility for your own development
- examples of both are included in the “Guidance in Answering” reading
- your best answers are 1-3 minutes long

Decide on an organization, or type of work, that you would be pitching your responses to. If you completed the research assignment in course #2, you can use that organization. If not, select an organization for your responses.

Once you are ready, record your responses. Ideally, you will make a video recording; if that is not possible, audio will suffice. Use the following format:

Introduction:

State what company or type of company you are considering in your responses.
What is the industry? What is the type of job you imagine interviewing for?

Answers to Questions:

Read Question #1

Then deliver your response

Read Question #2

Then deliver your response

Read Question #3

Then deliver your response
